SUMMARY

Penultimate-year Bachelor of Information Technology student (Software Technology major) currently working as a Junior Developer (Go) for a Japan-based software company, alongside an ongoing freelance web development engagement. Builds and maintains self-hosted infrastructure, including home network DNS/DHCP and IoT automation systems. Recently placed 5th of 24 teams at Macquarie University's Pitch for the Planet 2026 with RebootLoop, a privacy-first sustainability platform.

EDUCATION

Macquarie University

Bachelor of Information Technology, Software Technology major

Macquarie, NSW

Expected Graduation: 2027

TECHNICAL SKILLS

Languages: Go, Java, JavaScript, C++, HTML/CSS

Infrastructure, DevOps & Collaboration: Docker, Linux, Git, Tailscale, Jira, Confluence

Algorithms: Ongoing LeetCode practice (C++) – arrays, dynamic programming, bitwise operations, strings

Cloud: AWS Academy Graduate – Cloud Foundations (verified digital badge)

PROJECTS

RebootLoop | 5th of 24 teams, MQ Pitch for the Planet 2026

Sep 2026

- Designed the 5-screen user flow for an app that assesses old phones and laptops and routes them to repair, reuse, donation, or recycling based on safety, ownership, and data sensitivity
- Authored the university pilot plan (partner sourcing, resourcing, risk) aligned with UN SDG 12

Home Lab & Automation | Docker, Home Assistant, Zigbee, DNS/DHCP, Tailscale

Apr 2026 – Present

- Repurposed a decommissioned PC into a self-hosted home server (ZimaOS/Docker) and configured AdGuard Home as the network's DHCP/DNS server
- Built a 20-sensor Zigbee network to automate blinds based on time of day and temperature, managed remotely via Tailscale

CODE369 Client Website (369keys.com) | WordPress (FSE), JavaScript, Docker, Tailscale

Apr 2026 – Present

- Designed and self-hosted a client website (Docker/Tailscale) from spec, with integrated e-commerce – exceeding the client's expectations

EXPERIENCE

Junior Developer (Contractor)

Aug 2026 – Present

Japan Secure Solutions K.K.

Remote

- Primary Go backend contributor to a production software platform, resolving 21+ Jira tickets via merged pull requests within the first six weeks – the highest volume on the team
- Work within a traditional Agile/Scrum team (stand-ups, sprint planning, retrospectives), documenting in Confluence

Relieving Shift Manager

Sep 2023 – Present

ALDI

Belrose/Stanhope, NSW

- Contributed to raising store ranking from 156th to 52nd statewide by helping drive audit scores from 60% to a sustained 100% across every monthly audit for a full year

Additional Experience: After School Facilitator, Code Camp (2023–2024) · Customer Service Officer, Booktopia (2022) · Retail Sales Associate, UNIQLO (2022) · Senior Hall Staff, Gyutei Yakiniku (2020–2022) · Shop Manager, Plaster Fun House (2015–2020) · Electronic Engineer Apprentice, Yuraj Electronic Engineering (2018)
